The Art of Shooting

seems to come so naturally to some men that they early take rank as **GOOD SHOTS**.

They often only differ from **BAD SHOTS** in having **HAPPENED** to drop on suitable guns

Mr. HORTON has devised special apparatus that ensures suitability of gun. One can thus receive by **ART** what the other got by **CHANCE**, and be able to shoot by instinct

THE POWER TO SHOOT, at least creditably, is inherent in 95 per cent of men. Those who seem not to possess that power should therefore consult

THE ARGYLL CAR

is undoubtedly one of the finest mechanical propositions now on the market.

It has many excellent features found in no other vehicle, whether of British or foreign design.

I have studied and have had demonstrated to me the effect of the four-wheel braking system, which entirely obviates side-slipping, and as a result one wonders why other makers do not follow Argyll's lead—it is so simple and so thoroughly efficient.

As for the Single Sleeve Valve Engine—one cannot but admit the superiority of this type over all others; it develops such wonderful power for so small an engine.—(*Expert's Report.*)

Dear Sirs,

I am very pleased with the pram;
in fact, it looks equal to new again.

We have had it in **constant hard wear since it was bought from you four years ago**, and it has been **most satisfactory**.

I might say that quite recently it was overturned through a horse backing a cart into it, and as you would see when renovating it, it stood even that test remarkably well.
